

OUR APPROACH

DOGBEDIENCE BOARD & TRAIN PROGRAM

TRAINING THE DOG

At Dogbedience, a successful Board & Train program begins with building trust. Before training starts, we arrange an introductory meet-up with the Trainer--either on neutral ground or in a familiar setting like your home. We set-up your dog for success through one-on-one training, tailored to your dog's specific needs and delivering clear communication using Positive Reinforcement Methods.

TRAINING THE OWNER

Your participation is key in building lasting results. We dedicate time to teaching, demonstrating, and coaching you on how to communicate effectively with your dog. Our goal is to empower you with the skills to maintain success, reinforce training, and build a strong bond with your pup/dog.

BEYOND BOARD & TRAIN

We offer free lifetime advice for support and are available by phone, email or text. For continued learning, we offer comprehensive programs for advanced obedience training, including off-leash control, reliable recall, and solutions for reactivity and anxiety-related behaviors to help your dog thrive.

TRAINING THE DOG

WE CARE FOR YOUR PETS LIKE OUR OWN

- Utilizes positive reinforcement techniques—
No E-collars, No prong collars, No harsh methods
 - Offers one-on-one learning experience customized to your dog's needs. Your dog is integrated into the Trainer's home life which includes family members and their dog. We treat your dog like our own pet.
 - Focuses on canine good manners, Loose Leash training, obedience, behavior modification, socialization, and dog-to-dog reactivity (if any), while also building confidence in all areas of concern
 - Provides structured training both indoors and outdoors with real-world exposure to ensure reliable responses in everyday situations
 - Offers realistic goals depending on the number of days of stay; a 15 day minimum stay is recommended
- 

TRAINING THE OWNER

SUPPORT & RESOURCES

- Board & Train concludes with a 1-Hour Training session at your home. Your Trainer will demonstrate your dog's progress and teach your family on how to keep communication effective and reinforce positive behaviors
- Includes up to two (45-minute) sessions outdoors with you, your family, and your dog to reinforce training in public spaces
- Provides video clips of training sessions documenting your dog's learning journey
- Comes with training materials and a proper leash for continued success
- Offers free lifetime advice to ensure ongoing support and guidance
